

## CIRCLES Maths Week 3 – Monday 18<sup>th</sup> January

We will practising our subtraction again today using the ideas we have completed last week. Remember to look carefully and be accurate in your counting.

Here is a link to the Oak Academy which will support the learning.

$13 - 3$

$13 - 2$

$13 - 4$

$15 - 6$

$15 - 5$

$15 - 4$

$12 - 4$

$12 - 0$

$12 - 2$

$16 - 6$

$16 - 9$

$16 - 3$

**Key Learning: To use the 'Make ten' strategy to subtract a one-digit number from a teen number**

Think of a 'first, then, now' story for the equation. Model each calculation on a ten frame. Explain what you are doing. Complete the missing information.

$$1) 12 - 6 = \square$$

$$2) 14 - 6 = \square$$

$$3) 11 - 6 = \square$$

$$4) 15 - 6 = \square$$
