

## SQUARES Maths Week 8 – Thursday 4<sup>th</sup> March

You will need all your skills today in division and multiplication to solve the word problems below.

You will need think about counting in steps of 2, 5 and 10.

**Task:** Find the answer to the equations. Write out your equation each time or show using an array if it helps you.

<p>Multiples of 2 5 and 10 Word Problems</p> <p>There are 10 sweets in a packet. I have bought 17 packets. How many sweets do I have?</p> <p>Multiples of 10</p>  <p>6)</p>	<p>Multiples of 2 5 and 10 Word Problems</p> <p>There are 12 sausages in one packet. How many sausages are in two packets?</p> <p>Multiples of 2</p>  <p>5)</p>
<p>Multiples of 2 5 and 10 Word Problems</p> <p>Owen had a birthday party and invited 10 friends. He wants to put two blowers in each party bag. How many whistles does he need?</p> <p>Multiples of 10</p>  <p>4)</p>	<p>Multiples of 2 5 and 10 Word Problems</p> <p>Chris spends 70p on 10 party bags. How much does each bag cost?</p> <p>Multiples of 10</p>  <p>3)</p>
<p>Multiples of 2 5 and 10 Word Problems</p> <p>A car seats 5 passengers. How many cars would you need to take 25 people to the shops?</p> <p>Multiples of 5</p>  <p>2)</p>	<p>Multiples of 2 5 and 10 Word Problems</p> <p>Mr Blavoet wants to separate his class into groups of 5. There are 30 children in his class. How many groups would he need?</p> <p>Multiples of 5</p>  <p>1)</p>

**Remember to show how you have worked each equation out using multiplication.**
