

## Rights Respecting Schools

As a Rights Respecting School, we are trying to ensure that everyone is familiar with the articles in the UN Convention on the Rights of the Child (UNCRC)

Please see the separate document of UNCRC in child friendly language.

### Task 1:

We would like you to create a class charter. This is just a set of class rules, linked to the articles in the UN Convention on the Rights of the Child. It thinks about the responsibility of the pupils in school and the responsibility of the adults in school.

For example:

Article 12 – you have the right to your opinion and for adults to listen and take it seriously.

Pupil responsibility – put hands up and listen to others

Adult responsibility – listen to everyone's view

### Task 2:

Once you have thought of your rules, we would like you to present them in an interesting way so that they are eye catching and encourage people to read them. Don't forget to include what articles they are linked to.

Perhaps you would like to:

- Draw pictures to represent your rules
- Create a mind map
- Make a poster
- Make a rule book

OR choose an idea of your own.
