Year 6 Maths – Wednesday 27th January

Today, we will be starting to look at pie charts. We are going to continue to use Oak National Academy to do this.

Here is the link:

Please click on lesson 8

This lesson begins with an introductory quiz based on the knowledge you gained in the last lesson. Please send the score you get on this when you upload your work and let us know it is the introductory quiz.

You need to watch the video. There are different points in the clip where you need to pause the clip while you complete a question. Please make sure you do this, as these questions are linked to your task so it's good to practice with the examples. These do not need to be added to Class Dojo.

There is also a point in the video where you are asked to complete an individual task. You need to take a photo of this work and add it to Class Dojo. Please watch the rest of the video, once you have completed your task as the answers are explained to you. You can mark your work as we do in school (you don't need to mark in purple!) You then need to complete the quiz and include the score you got when you add your work to Class Dojo.
