

Year 6 Maths - Monday 18th January

This week in maths we will be looking at percentages and statistics. We are going to continue to use Oak National Academy to do this.

Today we are going to understand what a percentage is and how it links to a fraction. Here is the link:

Teacher Hub Specialist Subjects Schedule

Key Stage 2, Maths

Percentages and statistics

Lessons in this unit

- Lesson 1** ✂
Understand what a percentage is and its connection to fractions
15m video
- Lesson 2** ✂
Recall and use equivalences between fractions, decimals and percentages
21m video
- Lesson 3** ✂
Solve problems involving the
- Lesson 4** ✂
Solve problems involving the use of

You need to watch the video (there are details on how to do this on the sheets from last week's work). There are different points in the clip where you need to pause the clip while you complete a question. Please make sure you do this, as these questions are linked to your task so it's good to practice with the examples. **These do not need to be added to Class Dojo.**

There is also a point in the video where you are asked to complete an individual task. **You need to take a photo of this work and add it to Class Dojo.** Please watch the rest of the video, once you have completed your task as the answers are explained to you. You can mark your work as we do in school (you don't need to mark in purple!) **You then need to complete the quiz and include the score you got when you add your work to Class Dojo.**
