

Communication and Language Friday 22nd January 2021

Hot and Cold Game- Hide an object in the room. As the children try to find it say your getting cold if they are not near the object and you are hot when they are near the object.

Play the game using positional language. Children can ask questions relating to where the object is hidden using positional language e.g. is it next to, is it under, is it above, is it between, is it behind etc.

Remember to take pictures and upload them to Class Dojo.
